

Maciej Bator

Wroclaw, Poland — +48 534 614 710 — maciek@mbator.pl

Intro

Experienced DevOps Specialist with a strong focus on automation, cloud technologies, and CI/CD practices, but also quite interested in cybersecurity and teaching. Proficient in deploying scalable machine learning solutions using Azure Machine Learning, and automating workflows with GitHub Actions. Expertise includes infrastructure-as-code, cloud platform management (Azure, AWS), and monitoring solutions like Prometheus and Grafana. Seeking a challenging position to further expand my MLOps and cloud capabilities.

1 Experience

- **MLOps Specialist**

DXC (remote)

January 2024 – Present

- Maintained end-to-end machine learning pipelines using **Azure Machine Learning**.
- Automated model training, testing, and deployment processes with **GitHub Actions** to streamline MLOps operations.

- **DevOps SCM CI Specialist**

Nokia, Wroclaw, Poland (ℳ remote)

January 2019 – October 2022

- Developed continuous integration (CI) solutions for large-scale international projects, integrating multiple teams across various locations.
- Designed and maintained CI/CD pipelines using **Jenkins, Python, Bash, and Groovy**.
- Deployed applications on an on-premises container orchestration platform monitored by **Grafana** and **Prometheus**.
- Automated server and linux management using **Puppet** and later transitioned to **Ansible**.
- Introduced a new build system based on **Bit-Bake/Yocto** and migrated version control to **Git** from legacy systems.

- **Teacher Assistant (Part-Time)**

HackerU, Poland (remote)

April 2021 – Present

- Supported students and instructors in resolving technical issues during live classes.
- Assisted with managing operational tasks and setting up laboratory environments for cybersecurity courses.

- **Internship**

Enseñalia, Zaragoza, Spain

May 2017

- Assisted in web development projects, including **Moodle** theme customization and data entry.

2 Education

- **Politechnika Wroclawska**

Mechanical Engineering, Wroclaw, Poland – 2018 (Discontinued)

- **Elektroniczne Zakłady Naukowe**

IT Technician + CISCO courses, Wroclaw, Poland – 2014-2018

3 Skills

- **DevOps / MLOps Tools:** Jenkins, GitLab, GitHub Actions
- **Cloud Platforms:** Azure, AWS
- **Machine Learning:** Azure Machine Learning, ML Pipelines, Model Deployment, Monitoring
- **Automation Tools:** Ansible, Puppet
- **Infrastructure-as-Code:** Docker compose, Terraform
- **Version Control:** Git, Subversion (SVN)
- **Monitoring & Logging:** Prometheus, Grafana
- **Programming:** Python, Bash
- **Other:** Agile Methodologies, IT Operations

4 Languages

- **Polish:** Native
- **English:** Proficient (CAE – Cambridge English: Advanced certificate, FCE – Cambridge English: First certificate)

5 Personal Interests

- **Selfhosting:** Running self-hosted alternatives to popular services for personal use.
- **Backpacking/*-packing:** Engaging in survivalist and adventure travel.
- **DIY Projects:** Working on a wide range of DIY projects, including automotive, home improvement, and electronics.
